

RFP 2026-1003 Designated Election Official

Responses to questions:

1. Please confirm whether the Health District expects the Designated Election Official (DEO) to verify the eligibility of all voters on the absentee ballot list.
 - *The HD does not expect the DEO to verify the eligibility of all voters on the absentee ballot list. We receive all the lists from the county clerk and they are uploaded and simultaneously updated/confirmed in our own voter database*
2. Please indicate the current number of voters on the absentee ballot list.
 - *We currently have 3,482 voters on our absentee ballot list. We would expect this number to go up when it gets closer to the election*
3. Please describe the Health District's expectations for the DEO's on-site presence on Election Day, including required hours and duties. For example, on site for the full day, for a designated portion of the day, or only at the close of polls to support election judge tabulation/counting.
 - *Hours for election day are up to the DEO. With coordination of tasks/duties with the DEO and HD staff, the DEO can do a partial day on election day, but the HD would strongly prefer the DEO was present for tabulation and counting.*
